## Volunteer

### Computer Engineer Assistant

At info-plus Tech Computers Sales and Repair | Lagos Nigeria

- Analyzed system requirements and provided technical recommendations.
  - Troubleshoot hardware, software, and network issues to ensure smooth operations.
  - Tested and debugged computer programs to optimize performance.
  - Met user needs with correct system hardware and software components.
- 

## Internship

### ICT intern at west African ventures

During my 6-month internship at West African Ventures, I supported the IT team in daily technical operations, including software troubleshooting, printer installations, and hardware maintenance. I was actively involved in network setup, system repairs, and user support — gaining hands-on experience with real-world enterprise systems, technical documentation, and collaborative problem-solving in a fast-paced environment.
